

Globalance Zukunftsbeweger Focused Fund

Rate Cut Signals Revitalize Equity Markets

In August, international equity markets initially reflected an uncertain outlook. The latest announcements regarding new tariffs from the US led to noticeable declines at the beginning of the month. Particular attention was paid to Federal Reserve Chair Jerome Powell's speech at the Jackson Hole meeting. His emphasis on the risks of a cooling labor market was interpreted by the markets as a signal for potential rate cuts, which noticeably improved sentiment on the stock markets. Bolstered by these positive impulses, the Globalance Zukunftsbe­we­ger Focused Fund was able to end August with a gain. The megatrends of Climate & Energy as well as New Mobility stood out with strong performances. First Solar, a global leader in thin-film solar modules, and Uber Technologies, a pioneer in new mobility solutions, made a significant impact with their monthly returns, underscoring the importance of forward-looking themes in an otherwise challenging market environment.

Statistics (performance and risk)

Performance month of August	0.4%
Performance year to date	-5.2%
Sharpe Ratio	0.1
Annualized performance (since 11.11.2019)	1.2%
Annualized volatility	19.4%

Investment Strategy

The Globalance Zukunftsbeweger Focused fund makes targeted investments in roughly 70 equities which feature in the most innovative growth areas, such as digitalisation, new mobility or megacities.

Zukunftsbeweger (Futuremovers) are companies which respond successfully to the most important megatrends and derive above-average benefits from the growth potential of this sector.

When making its selection Globalance Bank takes care to ensure that these companies have a positive Globalance Footprint®, i.e. a positive effect on the economy, society and the environment, as well as the lowest possible warming potential.

5 reasons for the Globalance future mover Focused

- + Attractive potential returns thanks to the two-digit revenue growth rates
- + Direct participation in disruptive future topics
- + Fewer risks thanks to compliance with the 2.0°C climate target of the Paris Agreement
- + Alignment with a sustainable economy, society and environment
- + Global investment universe ensures access to the best investment options from around the world

Climate

Warming potential of Globalance Zukunftsbeweger Focused Fund

This portfolio has a low warming potential

The warming potential is based on a methodology developed by MSCI ESG and indicates whether a portfolio is within the agreed target of the 2015 Paris Climate Agreement. For the calculation, the values of the individual investments are capital-weighted and added together.

Weitere Informationen

The effect of the portfolio

Increasing weather extremes, the melting of the polar ice caps and other consequences can be directly linked to global warming. The climate crisis has an impact on wealth and vice versa. The principles of sustainability are the foundations for a livable society and a healthy environment. Integrating sustainability into a portfolio increases the resilience and potential of assets.

The warming potential in a global context

To put the warming potential in perspective, we show the possible global emissions pathways to 2100 (chart). These were created by Climate Action Tracker and show different scenarios ranging from current political projections to short-term country pledges (until 2030) and long-term country pledges (until 2050).

Globalance Footprint

The Globalance Footprint shows what assets do in the world - in the areas of economy, society and environment. Whether shares, real estate or tangible assets: We make a systematic assessment of the impact of all investments. Our grid is simple and objective. A total of nine criteria represent sustainable foundations for prosperity, the future viability of society and the preservation of our natural life-support systems. The Footprint is positive if the value is greater than 54.
